Having exceptional analytical, design and problem-solving capabilities. Excellent in communication skills and able to work alongside teams to achieve goals

TOP SKILLS

Technical: Java, Kotlin, Flutter, React-Native, CSS, HTML5, Git, Databases, Firebase, API Development

Professional: Problem Solving, Critical Thinking, Team Coaching, Communication

EDUCATION

B. Tech Information Technology, Technical University of Kenya (2016-2021)
eMobilis Technical Training Institute (2016-2016)

EXPERIENCE

Software Developer, Smart People Africa, Nairobi Kenya

June 2021- September 2021

In this role, I am part of the software development team; creating software solutions to clients from within and outside Africa.

Android Developer, Vyrosoft Group, Nairobi Kenya

April 2021- June 2021

In this role, I was the lead android developer at Vyrosoft Group, which is a center of innovation and software solutions to clients. I have introduced the present team to the scrum framework for agile software development which has in turn reduced development time immensely by 50%.

Achievements

- Learned and practised cross-platform mobile development using Google's framework Flutter and the Dart language.

Web Developer, Lead Nicely Inc., Tampa, FL-Remote

December 2020- April 2021

In this role, I designed and developed HonorLuv, a platform that inspires mental health via

the practice of yoga principles.

Achievements

- Redesigned web landing pages that ensured an increase in customer retention within the site by 50% and hence visitor conversion to clients
- Introduced the consistent use of wireframing and prototyping tools to the web development team

Android Developer, Simi Technologies- Nairobi

November 2019- August 2020

In this role, I steered the start up to get its very first clients by leading the android team and reducing overall development time by 30%. I did this by introducing the team to agile software development methodologies

Achievements

- Migrated client's applications to match upcoming mobile application trends which boosted app downloads
- Designed high-quality mockups that met with both the client and user's needs
- I contributed to Google Map's open source Autocomplete feature to be used in booming taxi apps

CERTIFICATIONS

- Facebook's Build for SDG 2020 Challenge hosted by Andela
- Mobile application development certificate- eMobilis Training Institute
